

Please let the WI No Call List LIVE! I wish my cell phone could be part of this list, too. It is a God-send to not have all the disturbances at home. My time is too precious to be wasted on these nonsense interruptions. I do not want solicitations to my home!! If I need something, I'll ask!! I'll do the calling. All they need to do is put themselves out there to be found in print... via the phone book, internet, newspaper, magazines. My entire family is happy to be on the NO CALL list. They have all signed up on the no call list. Hopefully you will find their comments in your files, as well. Thank you for your time. April Basten
